WORKSHOPS

MULTITRACK RECORDING

22nd May | 27th May (10am-3pm)*

Recording a band with confidence. Studio-based practical sessions, creating a full band recording from scratch. Using the latest techniques you'll gain the knowledge required for recording instruments and vocals

DRUM RECORDING

29th May | 3rd June (10am-3pm)*

Gain confidence in drum recording. Understand the anatomy of a drum, cymbals and how to tune, set up and record. Using the latest techniques you'll gain the knowledge required for recording drums

VOCAL RECORDING

31st May | 17th June (10am-3pm)*

Get the best sound out of the voice. The course covers recording singing, podcasts and various spoken word contexts and is tailored to the group's needs. Using the latest techniques you'll gain the knowledge required for vocal recording

GUITAR AND BASS RECORDING

1st June | 20th June (10am-3pm)*

Take away a full toolkit of guitar and bass recording skills. This practical session, tailored to the group, covers acoustic, classical, electric guitar and bass recording. Using the latest techniques you'll gain the knowledge required for guitar recording

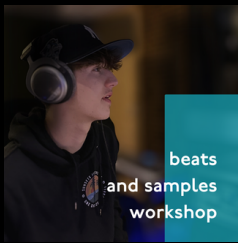

PRODUCE A PODCAST

2nd | 10th JUNE 2023 (10am-3pm)*

This one day practical session covers the basics needed to record edit and run a successful podcast. You don't need to come with any prior knowledge or material, though if you do, there may be opportunity to use it as the contents for the show

*Select your preferred date when booking. Workshops with more than one date listed are identical in outcome - though the experience may vary, tailored to the group

beats
and samples
workshop

BEATS AND SAMPLES

13th June | 8th July (10am-3pm)*

Creating your own beats with confidence. Studio-based practical sessions, sculpting drum sequences, understanding bass as well as sampling with free-to-use software. Bring your laptop (if you're able) - so projects can be continued after the session

songwriting
workshop

SONGWRITING

21st June | 24th June (10am-3pm)*

Blending collaboration and teaching - with solo time in our isolated rooms, you'll develop structure, chord progressions and lyrics. No prior experience is necessary, though if you have songs in progress please bring them

recording
piano
workshop

PIANO RECORDING

28th June | 1st July (10am-3pm)*

Over two days, understand and practically explore the different ways to capture the sound of a piano to suit different contexts. You'll come away with an understanding of different pianos, techniques and also the incorporation of MIDI

acoustic
instrument
recording
workshop

ACOUSTIC INSTRUMENTS

2nd July | 4th July (10am-3pm)*

Prepare yourself to be thrown in the deep end, recording a whole range of acoustic sources. You'll leave with a full toolkit, and a host of practical skills to record almost any instrument

electronic
instrument
recording
workshop

ELECTRIC AND ELECTRONIC

9th July | 11th July (10am-3pm)*

Exploring a range of electric and electronic sources from synthesisers to guitars, we'll look at the tools needed, the methods used to create some stunning recordings. Day two will include a recording of a live studio performance

All workshops are 1 day and cost £125. Make two or more bookings and get 20% discount at the checkout.

(No booking fee if purchased in person. Full terms on website)
